

The Christchurch Hacker Conference (CHCon) is celebrating 10 years of bringing together security professionals, hackers, researchers and enthusiasts from around the globe! Known for attracting industry-leading speakers and providing cutting-edge training, each year hundreds of attendees have flocked to CHCon to stay on top of the ever-evolving world of cybersecurity.

Why Sponsor CHCon?

As a sponsor, your company will be in front of the best and brightest industry professionals, along with up-and-coming talent. Our sponsorship packages will provide you with opportunities for recruitment, showcasing your business, networking, as well as showing your support and dedication to the cybersecurity community.

As a not-for-profit, CHCon is committed to making our conference accessible to all those who want to attend. It is because of our sponsors that we have been able to successfully continue our mission of empowering and inspiring individuals who are passionate about technology, security and innovation.

As part of sponsoring CHCon, we will once again be offering Sponsor Hall! This is a dedicated area for Bronze Level and up sponsors to share information on your company as well as display a banner at your table. This is a perfect opportunity if you are interested in recruiting and networking, as all of our attendees will frequent the hall throughout the conference. Please note: this area is not intended to be used for sales. We will also be offering the option to sponsor breaks throughout the conference. It is during these times that people gather to share information, brainstorm ideas and network, making it an excellent branding opportunity.

We are excited to offer sponsorship packages designed to maximize your investment in CHCon. If you are interested in other ideas or options not listed below, please reach out to us to discuss a customized sponsorship package.

We're looking forward to having you join us as we celebrate 10 years of CHCon!
